Amanda Sullivan, founder of The Perfect Daughter: Chaos Control, offers advice on how to sort it out. 1 Soap Box Corral all of your cleaning supplies in a caddy and arrange them from left to right in the order you use them. 2 Loaded Question Do you really need to wash the jeans you only wore once? Save time and energy. Wait until things are actually dirty to wash them—you may find you can do laundry less often. 3 Hang Around Store empty hangers in the laundry room. You'll always have a supply on hand, and you can rid your closet of extras. 4 Spot Treatment Sort clothes as they get dirty (use a hamper with multiple compartments). You'll be one step ahead of the game and less likely to have a pink wardrobe. Fitted sheets often look a mess when folded if you do it the wrong way. We've got step by step instructions to ensure that they come out looking neat. By Alia Hoyt
